MindScape™ The international mind method that combines scientific principles with ancient wisdoms.

What people say?

“Great weekend! As my knowledge and understanding increased, I could see how many ways I could use MindScape in my everyday life.” Dr David Beaumont - South Island

“I have found MindScape amazing to access and explore my mind, my personal self and discover more about my true potential in this world! ‘ Jonathan Callinan – Managing Director of Wellness Directory Ltd.

MindScape is like giving your mind a new programme, complete with a map, along with your own GPS system to focus on any aspect of your life. It is a method where **you learn ways of engaging intuition at will and enhancing creative and intuitive abilities, you truly learn how you can create the reality and experience of life you want!**

The benefit with MindScape is that it opens vast possibilities for every aspect of potential of your life or work. The techniques are also powerful tools for personal and professional development.

MindScape is taught in 2 ½ days and includes a detailed manual. The course is both instructional and experiential, with the Instructor Jane Gruebner teaching the techniques and then leading the participants through practice. It has unique tools that by the end of the course you will feel comfortable and familiar with as Jane allows a good amount of time for practice and Q & A.

There are no pre-requisites for taking a MindScape class. This course has a **structured method that works for everyone.**

Enhancing Mind power and Intuition

- **Personal Development** – The techniques allow deep insight and changes of your own individual process.
 - The MindScape tools connect you with your subconscious, which holds the conditioning and paradigm limitations. The method of MindScape has various tools that allow you to let go of limiting belief systems which are no longer working for you. **This ultimately connects you directly into the true nature of who you can become and what you are capable of achieving in your life and give you the how!**
- **Practitioners** – use within clinic for deeper sessions with clients by enhancing the practitioner's intuition, sense of mental focus and intent and opening more 'right brain thinking', it paves the way for deeper insights and sessions.
- **Business** – for use in decision making, strategy, goals, marketing, and inventions. MindScape helps to balance thinking with the left and right brain, ensuring clarity and effectiveness of thought processes.

Topics covered in Mindscape include: The HOW –and WHY MindScape is an effective method for the mind.

- **Mind functions:** Looking at the different functions of the mind, the relationship to intuition, creativity and how we create change in our lives and our clients by changing our minds.
- **The Left and Right Brain:** How MindScape creates a better connection and balance between the two hemispheres, allowing a greater clarity and easier decision making of thought processes.
- **Alpha mind:** Recognised as a conscious working state of mind, we explore in a practical and experiential manner, how and why it is conducive to creative and intuitive faculties.
- **Manifestation:** A powerful technique is taught, for mobilizing your dreams and goals towards creation; integrating the Principles of quantum physics and the Laws of the Universe.
- **Creativity:** Using the MindScape method to recognise and encourage innovative thought processes.
- **Rehabilitation, sports and physical training:** Scientifically proven mental techniques that are utilised in injury recovery, enhanced sports performance and improved health and wellbeing.
- **Healing:** Activate healing of self and others on all levels using the MindScape method
- **Accessing**
 - **Consciousness:** Participants learn to connect and work with people and animals alike.
 - **The Informational Field:** Exploring the concept scientifically and philosophically, then practically within the various exercises throughout the course. Allowing greater connectedness with people, in person and remotely.
- **MindScape Framework:** The participant is led to create their own unique conceptual 'virtual workshop', which then serves as a powerful framework for the mind's intuitive abilities as well as an effective life tool.

Dynamically helping you to create a great life!
